

JISHA-NSCI OSH Partnership Training Program focusing on “KYT”

Hazard Prediction Activities, namely, “KYT”, is a training method well-accepted by many industries in Japan and has significantly contributed to the decline of labor accidents. Aiming at brighter safety & health future in India and other Asian countries, Japan Industrial Safety & health Association(JISHA) and National Safety Council India (NSCI) work together to kick off this program for OSH staff in Asian countries. For more details of this program and KYT methods, please visit the following website.

→ <https://www.jisha.or.jp/english/seminar/oshptp.html>

2017.12.12 (Wed.) ~ 13 (Thu.)

THE PARK

No.1 Sector 10 CBD Belapur, Navi Mumbai, India

※ Accommodation at THE PARK and Rs.2,000 covering lunch costs will be born by participants themselves.

● Lecture & Workshop

Participants learn the methodology of KYT through lectures and workshops for two days by a KYT expert. Active participation with interests in KYT methods and a problem-solving attitude will be required.

**Lecturer : Mr. Hirohito SUZUKI (Director,
Zero Accident Promotion Center, JISHA)**

● Application

Filled-out nomination form downloaded from the website should be sent to APOSHO member organizations / JISHA by 10th October, 2017 by email or fax. APOSHO member organizations / JISHA will screen the nominations and inform the nominees of the results by the end of October. This time 15 trainees from India and 8 trainees from the other Asian countries will be enlisted in this training. For more details, please visit our website.
