Welcome Message from the Organizer

Toru Takegoshi

President,
Japan Industrial Safety
and Health Association
(JISHA)

APOSHO35 will feature keynote speeches and technical presentation presented over a period of two days with the participation of 39 member organizations from 21 countries and regions, including key nations from the Asia-Pacific region and several countries from Europe and the U.S. Through this conference, we aim to exchange information in the field of occupational safety and health in participating countries and regions and to eradicate occupational accidents in these regions.

With the participation of government agencies, academic societies and related organizations engaged in occupational safety and health and accident prevention in Japan, as well as industries and companies that are operating in the Asia-Pacific region, APOSHO35 is expected to contribute substantially to preventing occupational accidents both in the Asia-Pacific region and Japan. We look forward to welcoming many of you to this year’s conference.

Welcome Message from the APOSHO Secretary General

May I offer my sincere congratulations and those of the entire APOSHO membership to the Japan Industrial Safety and Health Association (JISHA) on being awarded the privilege of hosting the APOSHO Conference 35 in 2021.

The planning to host the conference has been many years in the process for JISHA and it is very pleasing that their efforts have been justly rewarded.

JISHA have been outstanding contributors to not only APOSHO but to the overall improvement of Health and Safety in the Asia Pacific region over many years to APOSHO and therefore being awarded the hosting of an APOSHO Conference is highly justified.

JISHA will be aware that the standard of the APOSHO Conference has been steadily increasing over the past number of years and the expectation is that this improvement will continue with APOSHO35.

On behalf of the APOSHO membership I wish JISHA great success in 2021.

Bernie Doyle

Secretary General,
Asia Pacific Occupational
Safety and Health
Organization
(APOSHO)

Overview of APOSHO35

Concept
