

Measures to prevent the infection of COVID-19

Japan Industrial Safety and Health Association (JISHA) takes the following measures to prevent COVID-19 infections.

We would like to ask everyone who participates in the SAKURA project to cooperate in preventing the spread of infection.

1. Infection prevention measures taken by the Japanese government

Please be sure to check the following sites for immigration restrictions imposed by the Japanese government.

Also, please provide the participants with the latest information on travel from the company to which they belong.

https://www.isa.go.jp/en/hisho06_00099.html

2. Infection prevention measures taken by JISHA

- (1) Ensuring physical distance
- (2) Wearing masks for secretariat staff and instructors, and using face shields as needed
- (3) Installation of alcohol for hand disinfection (reception desk, venue entrance)
- (4) Prior disinfection of doorknobs, desks, chairs, etc. at the venue
- (5) Constant ventilation during training by ventilation system, as well as regular ventilation by opening windows and doors
- (6) Installation of non-contact thermometer

3. Requests for participation

- (1) Before 14 days from the date of the training, if you have traveled to a country or region where entry restrictions or post-entry observation periods are required by the Japanese government or had close contact with the resident, please refrain from participating.
- (2) Participating companies should be aware of the vaccination certificate and negative certificate of the participant, and the physical condition of the participant just before travel.
- (3) If you have any of the following symptoms on the day of the training, please refrain from participating.
 - Have a fever of 37.5 degrees or more
 - Have cold symptoms or fever
 - feel strong dullness
 - feel stuffy

- (4) Please cooperate with the body temperature measurement at the reception on the day of the training.
- (5) At the time of reception and training etc., please cooperate in securing a certain degree of physical distance.
- (6) Please wear a mask at the venue, including during training, breaks, and restrooms.
- (7) Please wash your hands, wear a mask, perform cough etiquette and use alcohol for hand disinfection.
- (8) Please note that writing utensils will not be rented.
- (9) If you feel unwell during the training, please contact the secretariat as soon as possible. Please note that we may ask you to refrain from participating after confirming symptoms such as fever.
- (10) The reception desk on the day may be crowded due to body temperature measurement, etc., so please come to the venue early.

※If you are absent on the day or have any questions, please contact the SAKURA project secretariat.
