

Form No.4-3 (Related to Article 34-4)

Notification of Manufacture/Import of a New Chemical Substance

Type of undertaking	Name of workplace	Number of workers			Male	Female	Total
		Number of workers engaged in manufacture or handling of the new chemical substance					
Address	Telephone number ()						
Name of the new chemical substance							
Structural formula or rational formula of the new chemical substance (if neither formula is known, an outline of the manufacturing process)							
Physicochemical properties of the new chemical substance	Appearance	Molecular mass	Melting point	Boiling point	Others		
			°C	°C			
Planned annual manufacture or import amount for the first three years from the start of manufacturing or import of the new chemical substance							
Usage purpose of the new chemical substance							
In the case of import of the new chemical substance, the country or region where the relevant new chemical substance is manufactured							
Reference							

Pursuant to the provision of Article 34-4 of the Ordinance on Industrial Safety and Health, we hereby submit the notification as stated above with related documents.

Date:

Name and title of employer Seal

To: Minister of Health, Labour and Welfare

Notes:

1. Delete the term "Manufacture" or "Import" from the title pursuant to the purpose of notification.
2. For "Type of undertaking," select the category from the major groups of the Japan Standard Industrial Classification.
3. For "Name of the new chemical substance," fill in the name in accordance with the method established by the International Union of Pure and Applied Chemistry (IUPAC Nomenclature system).
4. If the new chemical substance has specific properties, such as sublimation, deliquescence or volatility, indicate that in "Others" in "Physicochemical properties of the new chemical substance."
5. If the new chemical substance is an intermediate product, indicate that in "Usage purpose of the new chemical substance," and fill in the name and usage purpose of the end product in the same section.
6. If you have made a request concerning the publication of the name of the new chemical substance because of patent application or other reasons, indicate that in "Reference."
If a patent application has been filed for the new chemical substance and a decision of refusal was made for the application or the application was published in the Official Gazette of the Japan Patent Office (JPO) or JPO's Patent Gazette, notify promptly the Minister of Health, Labour and Welfare of that action.
7. A signature may be filled in lieu of filling a name and affixing a seal.
